Introduction

This document serves as a User Guide for the Nuclear Regulatory Commission (NRC) external partners that have a need to use NRC's secure web based applications. More specifically, it describes the process through which an applicant can request a Level 3 digital credential using NRC's web based credential enrollment system.

Once the applicant has obtained a digital credential, it can be used to access NRC's secure web based applications directly over the Internet.

Selecting a Proofing Method

Identity Proofing Options - Prior to issuing a digital credential to an individual, the NRC and its representatives need to validate sufficient information to uniquely identify the individual, through a process known as Identity Proofing. Depending on the application to which you are requesting access you may be presented with multiple options. Please continue to the appropriate section of the guide based on your selected proofing method.

Remote Identity Proofing

The NRC's Remote Identity Proofing process is conducted online and guides the applicant through a series of multiple-choice questions to which only a true applicant will know the correct answers. Applicants experiencing difficulty with the online process are directed to Experian's call center for assistance. Applicants who are unable to prove their identity through the online or call center remote identity proofing processes must use the In-Person Identity Proofing process.

In-Person Identity Proofing

Applicants who prefer a face to face process or are unable to complete the remote Identity process will need to complete the Identity Proofing process in person. As the name implies, applicants are required to physically appear before a notary or trusted agent and present primary and secondary forms of identification as described in Appendix A of this guide.

Identity Proofing Options Comparison Chart

Remote Credential Enrollment Process

This section takes the applicant through the NRC web based credential enrollment system for the purposes of requesting a Level 3 digital credential via the remote identity proofing method. It assumes that the applicant has completed the application specific credential enrollment step and has been forwarded to the NRC External Credentialing Service and details the remaining steps required to complete the enrollment process. Each necessary screen is captured with an explanation of what the applicant is to comply with on each screen.

1. Use Microsoft Internet Explorer web browser to go to the enrollment site for the NRC application for which you are requesting access. Initiate the request for access following that application's specified process.
2. Once you've reached the appropriate point in the application's enrollment process you will be redirected to the NRC's External Credentialing Service and be presented with a prepopulated form – an example of which is depicted below.

NOTE: All data that was prepopulated in this form is read-only. If changes are required please contact the support desk of the NRC application to which you are requesting access to have the information updated and then reinitiate the enrollment process.

- C. Create Password – Please create a password that will be used now and throughout the entire lifespan of your digital credential. Enter that password in the “Create Password” field and enter the exact same password in the “Confirm Password” field. Remember this password as you will need it in the weeks to come when your credentials are actually issued to you. Please be certain to protect the password and do not share it with anyone. The password you create must follow these requirements:
- The password is case sensitive
 - The password must have a minimum length of 12 characters
 - The password must have a least one upper case letter
 - The password must have a least one lower case letter
 - The password must have a least one special character
 - The password must have a least one number
 - The password must not contain more than two repeating characters
- D. Authentication Questions – please select two security questions from the provided list and provide the appropriate answers. Please make a note of these answers as they will be required authenticate you in the future should you forget your password to the NRC’s External Credentialing Service website.
4. Enrollment Confirmation - Please review the information as it was captured to ensure correctness. To make any required adjustments click the “BACK” button and then resubmit – keep in mind that all pre-populated data is read-only at this point. To submit and continue the enrollment process click “SUBMIT”. To cancel the credential enrollment process click “CANCEL”.

2. You will need two forms of ID to complete the enrollment. Please see the Identity Document Reference List below for details.
3. You will need to take your IDs and enrollment papers to a notary public.
4. You or the notary will then mail the notarized forms
5. Your information will be verified by the NRC authentication service
6. You will receive an email informing you of the results, along with additional instructions and next steps.

Identity Document Reference List

The In-person Identity Proofing process for an NRC digital credential at the Level 3 assurance requires two forms of identification. The identity documents presented must be issued by a federal, state, local, or tribal government authority. The two identity documents are referred to as the Primary and Secondary ID.

Primary ID - As the Primary ID we ask for your driver's license or ID card issued by a state or outlying possession of the United States provided it contains a photograph or information such as name, date of birth, gender, height, eye color, and address. In the event the Primary ID is not a photo ID, the Secondary ID must be a photo ID.

Secondary ID - The list below provides several examples of identity documents that can be used as the Secondary ID.

1. U.S. Passport (unexpired or expired).
2. Permanent Resident Card or Alien Registration Receipt Card (Form I-551).
3. An unexpired foreign passport.
4. An unexpired Employment Authorization Document that contains a photograph (Form I-766, I-688, I-688A, I-688B).
5. Voter's registration card.
6. U.S. Military card or draft record.
7. U.S. Coast Guard Merchant Mariner Card.
8. Native American tribal document.
9. Driver's license issued by a Canadian government authority.
10. ID card issued by federal, state, local, or tribal government agencies or entities, provided it contains a photograph or information such as name, date of birth, gender, height, eye color and address.

Don't worry. We will let you know where you are in the process each step of the way and provide more details where appropriate. Again, thank you for your time and participation.

APPENDIX A – Identity Proofing Document List

The In-Person enrollment process for an NRC digital credential at the Level 3 assurance requires two forms of identification. The identity documents presented must be issued by a federal, state, local, or tribal government authority. The two identity documents are referred to as the Primary and Secondary ID.

Primary ID - As the Primary ID we ask for your driver's license or ID card issued by a state or outlying possession of the United States provided it contains a photograph or information such as name, date of birth, gender, height, eye color, and address. In the event the Primary ID is not a photo ID, the Secondary ID must be a photo ID.

Secondary ID - The list below provides several examples of identity documents that can be used as the Secondary ID.

- 1) U.S. Passport (unexpired or expired)
- 2) Permanent Resident Card or Alien Registration Receipt Card (Form I-551)
- 3) An unexpired foreign passport
- 4) An unexpired Employment Authorization Document that contains a photograph (Form I-766, I-688, I-688A, I-688B)
- 5) Voter's registration card
- 6) U.S. Military card or draft record
- 7) U.S. Coast Guard Merchant Mariner Card
- 8) Native American tribal document
- 9) Driver's license issued by a Canadian government authority
- 10) ID card issued by federal, state, local, or tribal government agencies or entities, provided it contains a photograph or information such as name, date of birth, gender, height, eye color and address.
